

We are honored to partner with Adaptively Abled Amputees, an extraordinary community of dedicated people who are supporting each other on their journeys of recovery and triumph over adversity.

We are flattered to play a small role in promoting healing and wellness in your lives. You are an inspiration for us to continue to improve and also a model to learn how we can move forward together.

*David tells us:*

*"Bravo's Shea is great  
for the pain in my  
residual limb and the  
CBD Drops are  
amazing for pain and  
great sleep."*

One of co-owner Ben's long time friends, David Hiler, had his leg amputated in early 2020 to stop an aggressive cancer from spreading further.

David has embraced his unexpected life as an amputee with incredible positivity and vigor. We're continually amazed by his resilience and his strength of spirit.

David's mission pairs well with Bravo Botanicals. We're proud to play a small but essential role in his recovery and his life going forward. He credits Bravo CBD Drops and Shea Cream with supporting his wellness and outlook during these challenging times.

It has been said that there are only two things we can change in life: our attitude and our effort. David walks the talk. We are proud to partner with David and thank him for his introduction to the Adaptive community.
